## CAREER PROFILE

---

Frontend-focused Full Stack Developer with 2+ years of experience in designing, developing, and maintaining scalable web applications using React.js, Node.js, SQL, and MongoDB. Strong expertise in UI development, REST API design, and creating modular, reusable components. Experienced with agile methodologies, Git version control. Proven ability to enhance user experience & optimize application performance through effective collaboration and team contributions.

## SKILLS

---

- **Frontend:** JavaScript (ES6+), ReactJS (Hooks, Context API), HTML5, CSS3, JSX, Tailwind CSS
- **State Management:** Redux, Context API
- **Styling & Layout:** Bootstrap, Flexbox, CSS Grid, Media Queries
- **Backend:** Node.js, Express.js, RESTful APIs, Axios, Webhooks, Microservices, Cron Jobs, Postman
- **Database:** MongoDB, MSSQL, Sequelize
- **Version Control & Tools:** Git, GitHub, Bitbucket, Agile Scrum

## WORK EXPERIENCE

---

**Software Engineer | Quolam Business Solutions | Pune | Sep 2023 – Present**

**Project: Periodical Surveys, IRCLASS**

- Developed responsive forms and reports in **HTML**, **CSS**, and **JavaScript**, ensuring alignment with client specifications and project requirements, and resolving common issues identified during **testing**..
- Worked on adding new features, correcting issues, and **fixing bugs** in **React.js** based **UI screens**.
- Managed version control using **Git**, **BitBucket**, ensuring smooth collaboration and seamless **integration** across the development team.

**Project: Notable**

- Designed and implemented a **Webhook UI** section using **ReactJS** for platforms, allowing admin users to configure, test, and manage **webhook** events and settings.
- Developed **API endpoints** in **Node.js** for handling webhook configurations, including permission checks, validation, and integration with authentication middleware.
- Defined platform-specific webhook events (**CRUD** operations, updates) ensuring **data flow** across all **modules**.
- Created and managed **cron jobs** and **distributed job queues** to process platform-specific events asynchronously and handle webhook **payloads** securely.
- Testing and validating **ReactJS** webhooks across platforms, ensuring **isolation** of logic to prevent regressions while handling large-scale batch actions like **product uploads** and **Google Drive sync**.

## PROJECTS

---

**Developer Portfolio Dashboard | Personal Project**

- Developing mini games and creative frontend projects showcasing expertise in React, JS, HTML and CSS.
- Portfolio: <https://github.com/mayuringit>

## EDUCATION

---

**B.E Mechanical Engineering, Pune University | First Class with Distinction | May 2021**

## CERTIFICATIONS

---

**Full-Stack Web Development Course, [Generation India] - Completed | Jun 2023**
